

RESEARCH MANAGEMENT SYSTEM

The way you organize your research is special EDS makes it scalable

A MODERN PLATFORM FOR FUNDAMENTAL INVESTING

A Research Management System (RMS) Like No Other

Always Up-to-Date and Fully Configurable

The story you document is just as important as the data that supports it. And as a fundamental investor, you take copious notes, every chance you have – analyst calls, earnings calls, management meetings, conferences, etc. You even have a tearsheet that defines your investment thesis and projected risk & returns – and so does your whole team.

However, all this information is disconnected - created in static applications (word, outlook, evernote, excel) & stored in multiple locations - meaning it is not organized on a firm-wide level. Getting the most out of your hard work, is, well, hard work.

EDS solves this challenge, by bringing your research process and everything that supports it to a centralized and intelligent platform that drives better utilization of your insights, improve collaboration & strong compliance practices.

A MODERN RESEARCH MANAGEMENT SYSTEM (RMS)

- Bring quantitative (estimates, models, price-targets) and qualitative information together in one platform that works the way you do.
- Robust email, Teams, Slack integration email in notes, input on an ipad, pull from excel, evernote, outlook, etc.
- · Configurable templates, tagging, version control & alerts.
- Streamlined & automated Connects directly to excel, internal data, or third party applications to ingest and dynamically update fields.
- Always Up-To-Date updates in real-time from anywhere.
- Best practice compliance.

ANSWER THE QUESTIONS THAT MATTER TO YOU...FAST

- What did management say about margins last year.
- Which ideas meet our objectives & when was our last touch point.
- Which analysts are consistently making the best forecasts and staying up-to date on their names.
- · When did we last increase our price target.
- How do we easily communicate with our investors.
- · How do we keep our intellectual property safe.
- How do we stay in compliance.

"We are excited about the announcement between two of our trusted partners, Equity Data Science (EDS) and Northern Trust, EDS has helped us build additional insight into our investment process, while we have long valued Northern Trust's support as we grow our business."

CONFIGURABLE TEMPLATES FOR ALL MEMBERS OF YOUR TEAM

Whether it's your investment thesis, pre-earnings, post-earnings, or marketing documents, the EDS template engine makes it easy to create the perfect documents for your team. And because its in a centralized platform, connected to all your data (models, market data, etc.), it is always up-to-date! Say good by to old investment docs that are stale.
